BUS AND CAR OPERATORS CONFEDERATION OF INDIA

Chairman's Message

Dear Esteemed Members.

Greetings of the day,

At the very outset let me extend a hearty welcome to you all in this "Prawaas 3.0" at a renowned historical with rich heritage city HYDERABAD. I am short of words to express my emotions and hearty feelings towards this glorious organization, we all proudly call it "BOCI"

Dear friends, it was only 5-6 years back few like-minded buses and car operators assembled and visualize the need to formulate a federation at the National level to redress the issues and problems faced by various operators. We decided to work towards "SAFE, SMART & SUSTAINABLE PASSENGER MOBILITY".

We started marching forward to achieve solidarity of all the 8 segments engaged in passenger mobility. Most unfortunately past over two years were very bad due to pandemic which hit our trade the most. BOCI had always come to the rescue of its members from various problems. One Nation, One Tax, One Permit (AITP); Extension of validity of documents; Exemption from payment of Penalties and M.V.Tax during the pandemic period; various favorable Amendments in Motor Vehicle Laws; Grant of Moratorium period to pay the bank installments etc. are the few achievements of BOCI to count.

Friends, we are working towards Safe, Smart, and Sustainable Passenger Mobility alright. Still, we are noticing fatalities in road accidents in India have reached an alarming position. The number of casualties is higher than the casualties due to Cancer. Crores of rupees are invested every year in the research to find a cure for cancer. It is high time to start working towards "ACCIDENT-FREE INDIA"

Finally, I am thankful to the host associations of Andhra and Telangana for their untiring efforts to make the Prawaas 30 a grand success. A very nice venue and sumptuous food are waiting to satisfy your taste buds. My sincere appeal to you all is to take full advantage of it. Rub your shoulders with other members coming from other parts of the country. Chat with them; laugh with them; Develop friendship; Share your ideas; experience and learn how similar problems are tackled by other operators. Visit the Exhibition; attend various sessions on the subjects of your interest and concern. All in all, make full use of this great opportunity; Then and only then our Prawaas 3.0 is going to be a success and create an everlasting image of sheer success and grandeur. After the Valedictory Session, I wish you a safe journey back home with lots of memories and achievements in your bag.

Thank You,

Sincerely Yours,

Jagdeo Singh
Chairman

BUS AND CAR OPERATORS CONFEDERATION OF INDIA

President's Message

Dear Friends,

All of us are meeting after long two toughest years in hundred years history of the world. Covid pandemic has badly affected passenger transport and all of us have experienced heat of it, but I am sure like phoenix bird Bus & Car Operators will rise from this crisis as winners. This period has taught us lot of things, it showed us how BOCI has benefitted all of us by creating all India network of Operators those who are willing to help each other in case of any difficulty. Buses going from Kerala all the way to North easter states could pass through that long journey only because in case of any difficulty people from respective areas assisted Kerala Bus Operator to pass those buses without any difficulty from their area and helped them in case of emergency, and this is true for buses starting from different states and ending their journey at different states. BOCI was continuously corresponding with multiple Governments to seek relief to Bus & Car Operators.

On this background, it had become essential for all of us to gather together to deliberate on way forward. Today this large gathering of Bus & Car Operators coming together from every nook and corner of India to show their solidity behind BOCI is an indication that how BOCI is growing strength to strength. In last few months I have seen that people are forgetting their internal rivalry and differences to come together to achieve common objective of BOCI.

BOCI's Vision is

"To promote Health, Happiness and Economic prosperity of the society by Promoting Safe, Smart & Sustainable integrated Passenger Transport Solutions".

India with its growing economy presents an exciting opportunity for the Bus & Car Operators but many challenges remain. Be it the nature of the physical infrastructure, Government regulations that govern the sector or passenger experience, there exist many inconsistencies and Lacunae. BOCI will work together with Governments and all other stakeholders to increase the share of Public Transport in passenger transportation, engage in Policy Advocacy with Central & State Governments to put up right operating regulatory frame work for the development of Citizen Friendly, Safe, Smart and Sustainable integrated Passenger Transport systems. It will strive to create level playing field amongst all Passenger Transport operators across India, ensure world class Passenger Transport Infrastructure of the highest standard and facilitate the process of integration between and within the various modes & operators of Passenger Transport. If only 25% percent of people shift from usage of personal vehicles to Public Transport, billions of rupees of the nation can be saved by achieving reduction in fuel consumption and cost of building roads.

This is our third edition of PRAWAAS 3.0 Conference & Expo. I invite everyone to take advantage of the knowledge sessions which will be attended and addressed by India's best and well known Academia, Top bureaucrats, Government officers and big successful businessmen. During two day sessions you will get information on future transportation trends, changing fuel trends, EV, Hydrogen cell technologies, changing business models & emerging technological changes. There will be round table discussion on how uniform regulatory framework can improve mobility of people and many more interesting subjects which are very important to bring in positive changes in Passenger Transport. In Expo you will be able to see variety of new Bus and Car models displayed by various Auto Manufacturers and new technologies to improve efficiency and attractiveness of Passenger transport.

So friends, let us join together to make this event a big success.

With Best Regards,

Prasanna Patwardhan
President

BUS AND CAR OPERATORS CONFEDERATION OF INDIA

General Secretary's Message

Distinguished delegates,

It gives me immense pleasure to welcome you all to the Third Edition of PRAWAAS.

Being the General Secretary of the prestigious forum gives me a great responsibility to dedicate myself to the growth of this organization.

We are proud to bring in a huge conglomerate of passenger transport stakeholders from small cars to large multi-axle buses and the public transport undertakings to celebrate this grand event for the development of the passenger transport industry.

The year 2020-2021/2022 was indeed very challenging for the Passenger Transport Industry due to the pandemic. Our Industry was the worst hit and has gone through a nightmare of financial stress and here we are to re-emerge as the strong backbone to the Nation in passenger transport industry and not with standing support extended by the Government in the form of ECLGS schemes etc. While we are grateful to the Government for such timely initiatives, the fact remains that many could not avail the schemes due to certain covenants imposed by the banks.

However, we could see the resilience power which is within the bloodstream of the passenger transport industry operators through which we have been able to sustain and re-emerge.

The worst is behind us and we now see a huge demand arising out of the shortfall of the vehicles as many of the small players could not put up with the financial pressure due to multiple reasons. A Lot of efforts have been initiated by BOCI to safeguard the interests of the operators in a critical time.

This is an ongoing process and I solicit support from each one of you. We have to work more collaboratively to ensure that we meet the needs of the society and economy.

The long-term vision of BOCI is to have effective dialogue with the Government to evolve suitable financial and regulatory measures and policy considerations to ensure that the passenger transport industry will support sustainable economic growth and competitiveness.

The challenge, therefore, is how we as stakeholders across the transport, work more collaboratively to ensure that passenger transport continues to serve the needs of society and the economy. Please share your thoughts and perspective freely which I am sure will generate sound ideas to strengthen our efforts in the right direction.

I am sure that Prawaas 3.0 event will generate more focused views and ideas that can help us meet diverse passenger operators across India. This Prawaas 3.0 is proposed to be a new and different event to showcase the resilience and perseverance of the fellow operators and cope up to make the festival of passenger transport operators a grand success.

Thank you,

Best Regards,

A.Afzal
General Secretary

Treasurer's Message

Dear Hon'ble Guests, Members of BOCI, Friends and Well Wishers,

After two successful editions followed by a long, trying period of two Covid years, it is my pleasure to welcome all of you to Prawaas 3.0.

Prawaas 3.0 strives to be an event that showcases the best and latest products, technologies, and services on offer in the passenger mobility sector. I humbly thank all our participants for continuing to be with us through successive editions of this event. It is needless to say that their effort and credentials drive the success of this event.

In addition to the above, this edition also addresses the endemic concerns of the sector and endeavours to offer solutions to our members to help them grow and expand their respective businesses.

It is evident that BOCI has come a long way from when it was founded in 2016 and has only grown from strength-to-strength across India. I assure you that we will continue to be a strong and effective voice for our members to drive important policy changes and assist businesses with your continued support.

I thank you and congratulate you all for the great efforts you have put in to make Prawaas 3.0 such a grand success - together we will work towards making BOCI an Association that is recognized as a symbol of Safe, Smart and Sustainable Passenger Mobility.

Thank you,

Harsh Kotak
Treasurer

I. NOTE ON BOCI

Bus Operators Confederation of India (BOCI) started in the year 2014 with the objective of improving Travel Standard in India

in Line with the subject, we would like to introduce BOCI, a non-profit organization and a recognized body by the Government of India. All state associates are members of BOCI (www.boci.org.in) and this is the only body which is represented by all bus operators in the country. The Association acts as an interface between thought leaders to enhance efficiency, competitiveness and business opportunities for its members by providing range of specialized services and strategic global linkages. The objective of BOCI is to work closely with Government to ensure that policies adopted by it are conducive for the growth of transportation sector and work towards realizing India's Prime Ministerial Mission "Make in India"

Further wish to add that with the dynamic & vibrant leadership of Shri Nitin Gadkari, Hon'ble Minister for Road Transport, Highways & Shipping, in strengthening the standards of Road Transport connectivity using modern technologies with the intention of encouraging public & private passengers' mobility in India.

II. VISION

To promote Health, Happiness and Economic Progress of the Society by Providing Safe, Smart, Sustainable & Environmental friendly Integrated Passenger Transportation solutions.

III. MISSION

- To increase the share of Public Transport in transportation.
- To engage in Policy Advocacy with Central & State Governments to put up right operating regulatory frame work of Permits & Taxation for the development of Citizen Friendly, Safe, Secure & Economically sustainable Public Transport systems.
- To create level playing field amongst all Passenger Transport operators across India.
- To ensure world class Public Transport Infrastructure of the highest standard.
- To facilitate the process of integration between and within the various modes & operators of passenger Transport.
- To bring in International best practices in operations and management.
- To produce and share Knowledge for fostering Innovation in Passenger Transport.
- To create platforms for Knowledge transition and Business collaboration amongst all stake holders.
- To evangelize the usage of cutting edge technology in all aspects of Passenger Transport.
- To actively encourage innovation in designing, developing & providing Passenger transport solutions.
- To ensure constant up gradation of Passenger Transport services including Safety, Security, Reliability, Hygiene and Timeliness.
- To foster a conducive ecosystem for sustainable growth of the Passenger Transport operators.

BUS AND CAR OPERATORS CONFEDERATION OF INDIA

IV. AIMS - TEAM for UNITY

- To bring all the stakeholders from the Bus Operator segment together on a single platform.
- To be an independent, unified voice that speaks for all the stakeholders of the Bus Operator segment.
- To liaise with Ministry of Road Transport & Highways, Ministry of Urban Development & Ministry of Tourism to ensure development of Passenger Transportation Systems & Infrastructure as required.
- To get engaged with various Transport and Tourism development corporations at National & State level.
- To get engaged with various State Transport Ministries & Departments to assist State transporters association affiliated with BOCI to resolve state level issues.
- To get engaged with Ministries of Indian Railways, Shipping and Aviation to achieve target of providing integrated transport services to the citizens of India.
- To strive to bring in harmonization of regulatory frameworks with Central & State Governments.
- To organize an annual Event for Bus operator segment and conduct Workshops & other programs for Knowledge exchange & Business collaboration.
- To collaborate with International public Transport Federations & bodies.
- To give annual BOCI Awards to recognize good work & successes of its members in multiple categories.
- To develop Human resources through Skill development & Up skilling.
- To educate members on all issues related to Bus operator segment & strive towards their betterment.
- To enter in to agreement with Bus & Car manufacturers, Spare parts & Tire Manufacturers, Oil& Gas producing companies to ensure fair pricing, this will benefit BOCI members.
- To collaborate with Technology companies for introducing advance technologies for giving better experience to travelers& to improve operational efficiency.
- To engage with financial institutes to evolve better ways of financing of the Assets, Projects & Working capital.
- To engage with institutes like ERDA to ensure right innovative ways to insure assets and to get insurance coverage at right Premium price.
- To represent transporters at various levels of Judiciary for getting justice and to bring in reforms required for strengthening Public Transport in general & business environment for our members in particular.
- To get associated with various National & State level Industrial Bodies, Organizations, Trade unions, Associations, Federations and Confederations to achieve the target of improving share of Public Transport by road.
- To work closely with organizations working in the field of transportation including AIMTC, AITWA, AICOGOA& SIMTA.
