E-mail	: bhavsar.mukund@intangles.com
Address	: Unit No 601 & 604, 6th Floor, Poloroche Business Avenue, Survey No 227/A/222/1 to 17, Village Lohegaon, Taluka Haveli, Viman nagar, Pune, Maharashtra, India, 411014.
Website	: https://www.intangles.ai/

Profile:

Intangles is a global predictive AI company transforming fleet operations through forward-looking vehicle intelligence. Instead of reacting to breakdowns and rising costs, fleets can anticipate issues before they occur. By continuously analyzing real-world vehicle data, the platform detects early signs of system degradation, helps prevent failures, improves asset utilization and reduces downtime. Today, Intangles supports fleet and mobility operators across 18 countries, monitoring over 500,000 vehicles worldwide. As transportation becomes increasingly connected and electrified, Intangles is building the intelligence layer that makes fleet operations more predictable, efficient & reliable.

KATCH MOBILITY PVT LTD

Sector : Technology & Infotainment
Contact : Mr. Karia Parth
Designation : Founder
E-mail : karia.parth18@gmail.com
Address : 5o6 gala empire
Website : <https://www.katchapp.in/>

Profile:

Katch — the smarter way to run your fleet. Katch gives transit agencies complete visibility and control over every trip. Our onboard ticketing system captures every fare in seconds — cash, UPI, card, or wallet — while our automated ridership verification technology cross-checks passenger movement against ticket sales in real time. The result: agencies recover revenue lost to fare evasion, get accurate occupancy data for safer, better-planned routes, and finally see the full picture of their operations — down to every seat, every stop. Trusted by transit operators across multiple cities, Katch is helping fleets run leaner, safer, and more profitably — one route at a time.

Building the Backbone of India's Commercial Electric Mobility

To make commercial fleet electrification financially viable, operationally dependable, and scalable through technology, competitive financing, and integrated mobility solutions.

The Drivn Advantage

The transition to electric mobility requires more than electric vehicles, it requires an ecosystem built to support them.

Driving Large-Scale Fleet Electrification

Competitive capital costs with the opportunity to scale while requiring less equity exposure, supporting businesses transitioning to electric buses and trucks for long-term operations.

Technology That Powers Better Decisions

Leveraging operational intelligence to improve asset utilisation, revenue optimisation and fleet efficiency.

Beyond Vehicle Financing

Integrating charging infrastructure, planning, battery lifecycle management, fleet operations, and proprietary technology into one platform.

About Drivn

Drivn is building India's financial backbone for commercial electric mobility by acquiring, owning, and leasing electric buses and trucks through an integrated platform that combines revenue realisation, charging infrastructure planning, battery lifecycle management, fleet operations, and end-of-life solutions.

Purpose-built for intercity passenger transport operators, logistics providers, and asset-intensive industries, Drivn helps businesses transition to electric fleets with confidence and at scale.

SWAPP DESIGN

Sector	: Electric Mobility
Contact	: Mr. Buddhabrata Chakravorty
Designation	: Cofounder & CEO
E-mail	: buddhabrata@swapp.design
Address	: Innovation Studio, 10/4, Phase 3, Bommasandra Industrial Area
Website	: https://swapp.design

Profile:

Swapp Design helps commercial EV fleets reduce cost per kilometre through autonomous battery swapping. Our Vision AI-guided SwappBots navigate and align to the vehicle on their own, with no rails, conveyors, or fixed docking machinery, completing a swap in just 1-minute. This lets vehicles run on smaller, right-sized battery packs instead of carrying excess capacity, lowering vehicle cost, reducing lithium dependency, increasing uptime, and improving fleet economics. We build the complete battery-swapping ecosystem: SwappBots, Swappable Battery Modules, and Swapp Stations.

SWITCH MOBILITY

AI powered driver hub operation optimisation, multi-dimension driver rating, language skilling lessons etc creates a global career path for Indian truck drivers enabling impact like IT, Nursing.

TURNO

Sector : BFSI & Fintech
Contact : Mr. Prashant Sharma
Designation : Brand Lead
E-mail : prashant.s@turno.club
Address : 7-A1, 3rd A Cross Rd, near VR mall, Singayyanapalya, Mahadevapura, Bengaluru, Karnataka 560048
Website : <https://www.turnoev.com/>

Profile:

Turno is India's first Battery Intelligence and Lifecycle Management Platform, built on a simple but overlooked insight: commercial EV adoption in India isn't failing because of demand or technology — it's failing because nobody can answer a basic question, what is this battery actually worth. Turno Bus is a full-stack leasing for intercity electric buses and trucks — the heavy commercial vehicle expression of Turno's broader battery-intelligence system. Turno offers vehicle financing, charging infrastructure, maintenance, and battery residual risk into one lease. The operator's job shrinks to one thing — run the route.

UNO MINDA LIMITED (SEATING DIVISION)

Sector : Seats
Contact : Mr. Suguresh Desai
Designation : Manager- Sales & Marketing

Website : <https://www.vertelo.in>

Profile:

Vertelo is India's leading end-to-end fleet electrification platform, headquartered in Mumbai and launched in 2024. Backed by Macquarie Asset Management and the Green Climate Fund, Vertelo offers comprehensive EV solutions including vehicle leasing & financing, charging infrastructure, in-house telematics platform, and end-of-life asset management. With USD 405 million raised and an RBI-licensed NBFC, Vertelo partners with fleet operators and OEMs to accelerate India's shift to electric mobility. Aligned with India's 2070 net-zero goal, it targets a reduction of ~9.5 MtCO₂e in emissions.
